

UC-win/Road VR360 degree simulator

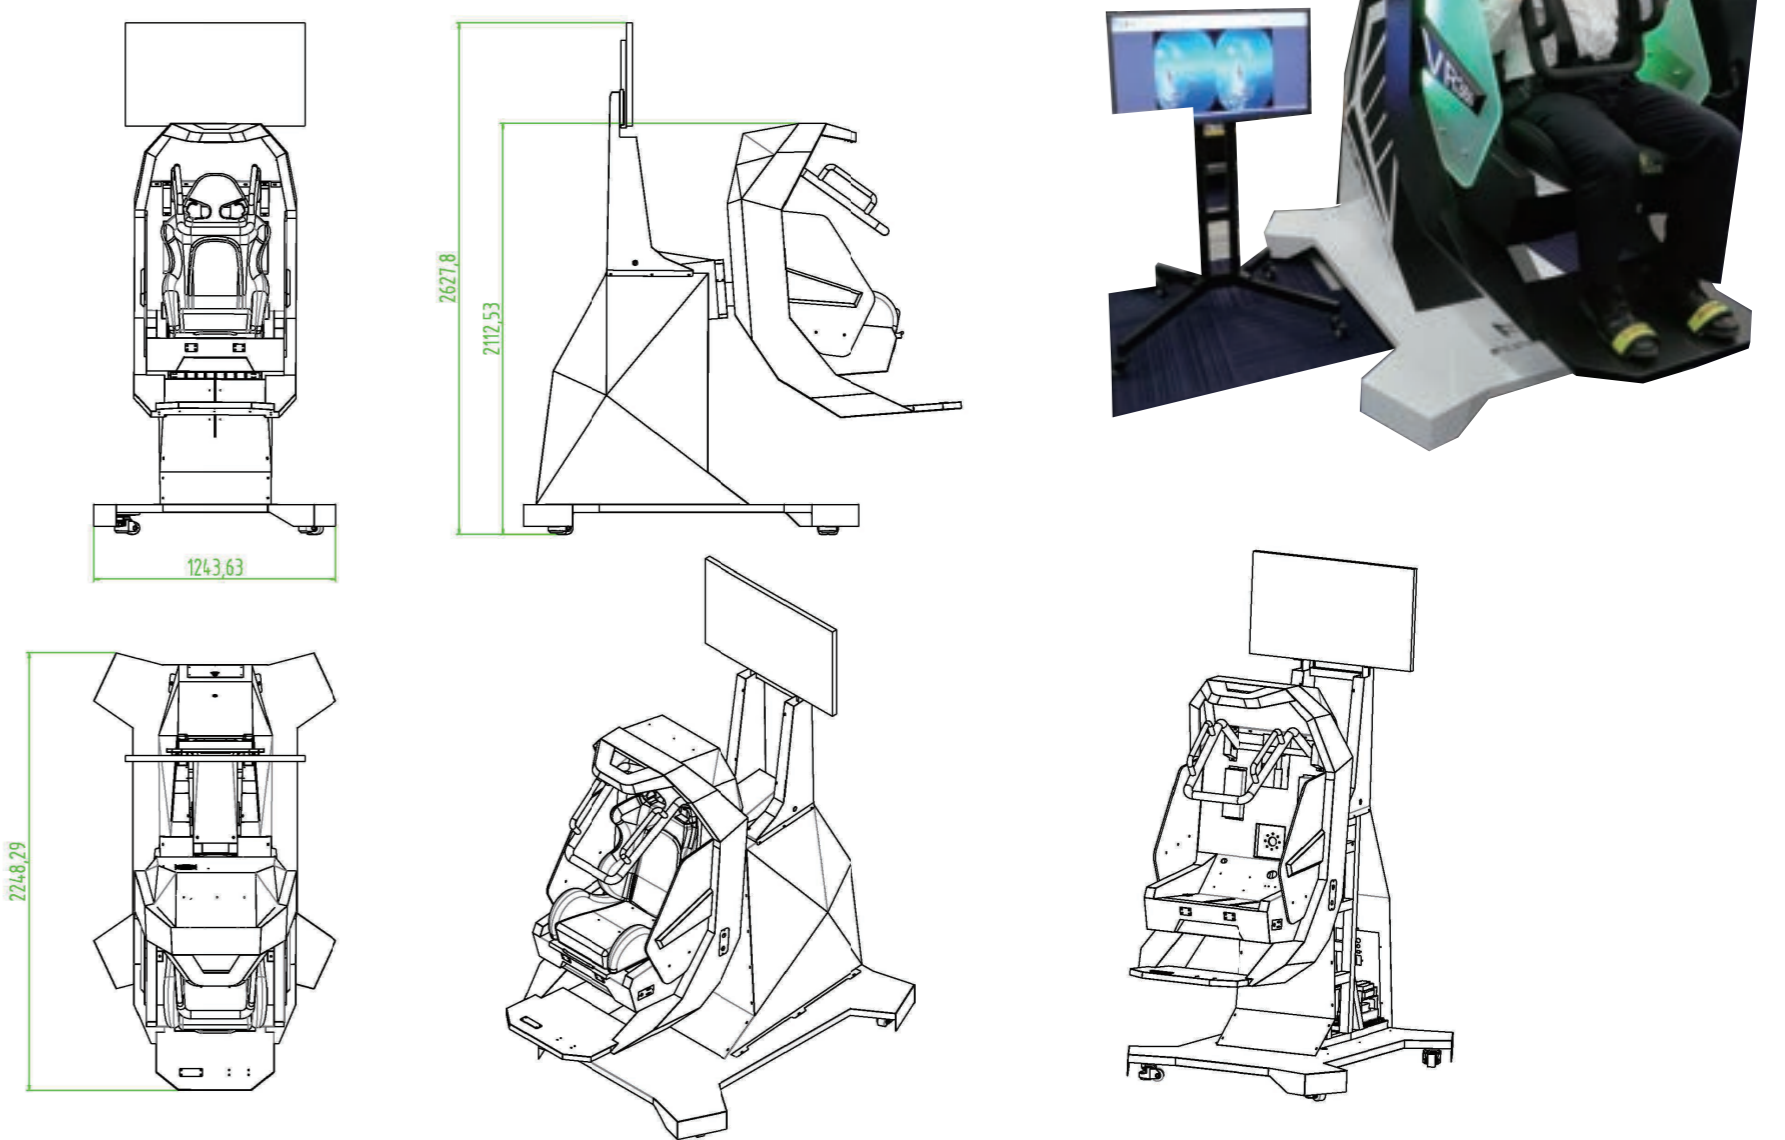

UC-win/Road Drive Simulator Lineup

This simulator allows users to experience dynamic motion by wearing a head-mounted display and sitting in a seat that can pitch and roll. Rolling can rotate up to 360 degrees on each side, realistically reproducing the motion of a virtual roller coaster built on a lake.

System Configuration

Dimension	2047(D)x1244(W)x1960(H)
Installation space	2500(D)x2200(W)x2400(H)
Weight	350kg
Roll	±360°
Pitch	50°
Max Payload	150kg
Voltage	220V single phase 50/60Hz
Electricity	2800W
